Stallions, Mares and Colts.

To the Officers and Members of the Nantucket Agricultural Society :

Gentlemen,—Your committee to whom was assigned the duty of awarding the premiums on Stallions, Mares and Colts, respectfully submit the following:

For the best brood mare, with colt by her side, there was but one entry: John H. Bartlett offered his mare Fanny, with colt 3 months old, which we would award the third premium of \$3.

For the best 4 years old colt, shown to harness:—There was but one 4 years old colt on the ground—owned by D. W. Burgess & Sons—and not being shown to harness, we could not award any premium; but we recommend a gratuity of \$3.

For the best 3 years old colt there were but two entries, and we award:

To John Harps, first premium of \$4, for the best appearing colt, Paul, age 3 years, weight 925 pounds.

To Joseph Starbuck, second premium of \$3, for his colt, Kate, age 3 years July 14th.

For the best 2 years old colt there were four entries and we award:

To Matthew Macy, first premium of \$3, for his colt, Phil Sheridan, age 2 years, 4 months, 21 days.

To Charles H. Mowry, second premium of \$2, for his colt, Kate, age 2 years, 5 months, 7 days, weight 840 pounds.

To Ira W. Appleton, third premium of \$1, for his colt, Archie, age 2 years, 1 month, 25 days, weight 1,000 pounds.

To John H. Bartlett, we recommend a gratuity of \$1 for his colt, Kate, age 2 years, 4 months, 21 days.

For the best one year old colt we award:

George Flood, first premium, \$2, for his colt, Daisy, age 1 year, 5 months, 6 days, weight 650 pounds.

Leander C. Small, second premium, \$1.50, for his colt, Bertie, age 1 year, 2 months, weight 560 pounds.

John H. Bartlett, third premium, \$1, for his colt, Hector, age 1 year.

Although there was no premium offered for a five months old colt, there was a very likely one entered by Charles Pitman of Siasconset, for which your committee would recommend a gratuity of \$1. We also recommend a gratuity of \$1 to John Harps for his colt, Eleganta, age 1 year, 7 months, 5 days.

The chairman, Mr. John Gray, appointed by the Society, claimed that he had not been notified of his appointment, and declined to serve. Your committee procured the valuable assistance of Mr. A. C. Chan-

dlar of Plymouth, for which we were very thankful, and the Society very fortunate to have the judgment of a gentleman of so large experience.

Poultry.

The committee on poultry again congratulate the society on the fine display of poultry exhibited. The average quality of the coops displayed was quite as good, and in some respects superior, to that of former years, though the variety has sometimes been larger. The annual exhibitions are interesting, not only on account of their individual attractions, but as furnishing an index of the popularity of the different breeds.

The time of giving premiums for ordinary fowl is passed and visitors now expect to see only the choicest breeds, and even those must be bred with care to insure satisfaction. We do not expect every one to undertake to breed according to the rules and table of points laid down in the standard, but we wish to urge upon every one who keeps fowl the necessity of

using more care in the selection of breeding stock. We claim that any lot of fowl, however poor, may be greatly improved year after year by care and attention.

Are fowl profitable and to what extent? is a question often asked. We have no hesitation in saying that with proper care and due regard to the kind, provided the number is not too large in one enclosure or at one place, that from one to five dollars can be cleared on every fowl above the cost of keeping in one year, and this without receiving any fancy prices. Now what animal kept on a farm yields a greater per cent. according to the capital invested than this?

We fear one great trouble with a majority of these people who keep fowls is, they are inclined to keep too many. It has been proven by poultry raisers that a pound of poultry flesh can be raised as cheap as a pound of beef, and we all know that eggs are a household necessity.

Your committee award the following premiums:

Mrs. T. G. Macy, pen Light Brahmas, first premium, \$5.

Butter and Cheese.

To the Officers of the Nantucket Agricultural Society:—

Your committee to whom was assigned the duty of making awards on the best exhibits of butter at the recent Fair make the following report: There were two entries made, viz.: Benjamin F. Worth, one lot, 5 pounds of butter; Oliver C. Backus, one lot 5 pounds of butter; and we award to Oliver C. Backus the first premium of \$5, for the best lot; to Benjamin F. Worth the second premium of \$4, for the second best lot.

We much regret there were not more contributors to this very important department in agricultural

productions, especially when we consider the excellent dairies on our island, and butter manufacturers unexcelled by those in any other county in the state. In testing the qualities of butter on exhibition at our Fair, we are forcibly reminded of the importance of salting with great care, as an excess of salt destroys the flavor thereof.

There were not any entries of cheese.

For the Committee,

ALEXANDER MACY.

Manufactures.

The committee on Domestic Manufactures respectfully submit the following report of awards. The funds in your committee's hands for premiums in this department, would not permit of an adequate premium on many of the articles. The whole number of entries were 48, viz.:

 Mrs. L. S. Brokaw, do., .75.
 Mr. I. E. Coffin, 2 Davis vertical feed sewing ma-
 chines, Diploma.

The quilts on exhibition, fifteen in number, comprise a large variety, and were all neatly made. Many hours of patient labor must have been spent before they were completed and ready for exhibition. One deserving special notice containing several thousand pieces, was made by Catharine Austin. Another, forming a large bright colored star on a white background, was made by Mrs. William C. Gifford. The beautiful white knit bedspreads made by Mrs. Caroline Swain and Mrs. A. C. Bartlett are also worthy of special mention, as well as many of the floor mats on which so much time was necessarily spent. The pretty crocheted afghans, of which there were several, deserve commendation. There was only one entry of carriages, that of a Nantucket Box Wagon, made by Mr. Allen Smith, which was well worthy of honorable mention, as was also the case of beautiful shark's tooth jewelry made by Mr. John P. Sylvia, and the two Davis vertical feed sewing machines exhibited by Mr. I. E. Coffin, and so ably operated by Mrs. I. E. Coffin.

Your committee on manufactures would recommend that in future there be a larger fund placed at the disposal of persons acting in this department, to be used in discretionary prizes, also that an entry clerk be appointed besides the regular committee.

Respectfully Submitted.

For the Committee,

MRS. E. R. MACY.

Fine Arts.

To the Officers and Members of the Nantucket Agricultural Society:—

Your committee in the Fine Arts department report as follows: There was about the usual display in this department and several excellent contributions from our local artists, rendering it difficult for the committee to make a satisfactory decision as to who should capture the premiums. Your committee regret the

limited amount of money allowed this department, making it impossible to notice all they would otherwise have done. It is not in proportion with the amounts allowed other departments. Therefore your committee would respectfully recommend a more liberal allowance in the future. We award as follows:

B. G. Tobey, landscape, second premium, \$3.

For the best collection of oil paintings, Wendell Macy, first premium, \$3.

CHARLES H. STARBUCK, Treasurer

Secretary's Report.

The thirty-third annual exhibition of the Nantucket Agricultural Society was held September 5th and 6th, 1888. A cold easterly wind prevailed on both days, but a large representation was present to make the occasion one of long remembrance.

The delegation of cattle at the Fair Ground made a creditable appearance, both as to number and quality. Of Thoroughbreds there were a number of very fine animals, showing by their pedigree some of the best strains of blood in the country. The Jerseys were predominant. Of Ayrshires there were a few. A large proportion of Grade Jerseys, Ayrshires and Holsteins were present, making in the aggregate, with Working Oxen and Steers, one hundred and forty head. There were thoroughbred bulls of several classes of stock, swine with and without offspring, sheep and lambs, with several varieties of poultry, making for our island home fair, an attractive collection.

Plowing with horse and ox teams is usually an interesting feature of the first day's programme, and while the several competitors were earnest in their work, among the crowd of spectators voices could be heard commenting and praising according to individual judgment.

The show of horses, mares and colts has its devotees, and there were some very fine animals in this line. Much pride and care is exercised by the present generation in this noble beast above the past. To own and to drive an animal of intrinsic worth is commendable.

There were the usual side shows, games and social amusements, with some fine driving around the track, while a crowd of moving humanity were eager with expectancy.

THE HALL.

The hall was well arranged and the various tables were filled with an abundance of goods of the several classes. The vegetable tables were well supplied with the result of the farmer's toil, and visitors to our island fair are surprised at the amount of our production as well as the quality. The choicest products from field and garden, the richest of fruit in all its luxury and flavor from our home gardens, gilt-edge butter from the farm dairy, honey in jars and comb from the apiary.

The tables devoted to fancy work and manufactures presented a scene of great taste and meritorious work which one can only appreciate by personal examination. Nor is the art department to be forgotten, for this is indeed a field of labor of mind in the pencilings of nature and an educator in the arrangement of the beautiful. All are not endowed with the same impulse; all have not the same scenic conceptions. The managers of our Agricultural Societies do recognize the claims of art to honor among our industrial interests, and in the imitative we admire the tracings of brush and crayon. The display of paintings and works of art was very satisfactory and cannot be too highly estimated.

To do the subject of flowers justice we cannot, for there is an ideal beauty in the combination of plants and flowers. From the earliest times plants and flowers have had a mystic or symbolical signification. The olive was an emblem of peace. The Egyptians dedicated plants to some god and the poets of mythology pretended that persons were changed into plants. Thus originated names. Many nations have made flowers the emblem of sentiment and passion, and to-day there is hardly a plant but expresses some emotion or sentiment of the heart. Thus Amaranth: (sentiment) "Immortality." Amaryllis: (sentiment) "Affectation." Nasturtium: (sentiment) Darkness

flees at your approach." During the warmest and darkest nights little coruscations of electrical light may be seen flashing from its petals. Hydrangea: The red color of this flower may be changed to blue by watering with a weak solution of alum. The show of flowers and pot plants was charming. The gathering, and pleasing manner of arrangement was a work of much labor, and great credit to all who participated in that decorative and useful employment. I must say something of the sunflower, as there were several in the hall. Standing as an ideal representative of the sun, among the flowers and vegetables, the poet says:

"Uplift, proud Sunflower, to thy favorite orb
That disk whereon his brightness seems to dwell,
And as thou seem'st his radiance to absorb,
Proclaim thyself the garden's sentinel."

Allen Smith exhibited an exceedingly handsome box wagon, classed with manufactures; I. E. Coffin, Davis Vertical Feed sewing machine; F. J. Crosby, fine display of groceries; Henry S. Wyer, souvenirs and Nantucket views; George V. Hecker & Co., New York city, farinaceous goods. The last named four were awarded each a diploma.

The Standish Guards from Plymouth, with their magnificent band, added much to the interest of the occasion, and indirectly to the general receipts, drawing crowds to the ground and hall. At the latter place, on the second evening there were more visitors than at any former agricultural fair. At one time it was estimated there were one thousand present. We were honored by the presence of J. H. Goddard, Esq., and wife, of Barre, Mass., Mr. Goddard being the delegate from the State Board to our society. The spacious area of the hall gave ample room for a tasteful arrangement of exhibits and for a grand skating carnival, after which the usual Agricultural Ball came in as a finale to the annual fair.

The society has paid on a note against it this year

three hundred dollars, reducing the note to one hundred dollars. Success has attended our efforts the past year, and we hope soon to say we can take a new departure.

The society has held three institutes as required—November 21st, December 5th and December 17th, taking such subjects as appeared to be the best suited to local wants.

ALBERT EASTON, Secretary.

FIRST.—All entries (except horses) must be made previous to 10 o'clock A. M. of the first day of the Fair. All horses must be entered previous to 10 o'clock of the second day of the Fair.

SECOND.—Competitors must be the owners of the animals offered. All fruits and vegetables must be raised by the person presenting them.

THIRD.—All articles exhibited must remain during the Fair.

FOURTH.—No animal or article will be entitled to a premium which is removed by the owner without permission of the Committee of Arrangements.

FIFTH.—All animals or articles exhibited will have all possible care, but must be at the risk of the owners.

SIXTH.—Upon application to the secretary, the Committee on Crops will visit any farm, field or crops entered for premium. All entries must be made on or before June 15.

SEVENTH.—It will be optional with the various Committees to award a premium or not, as the thing entered for it may in their judgment deserve, whether there is competition or not.

EIGHTH.—No person receiving a premium for a collection of animals, vegetables or articles, is entitled to a premium for any single article in said collection at the same exhibition.

NINTH.—All premiums awarded and not called for within fifteen days will be added to the capital stock of the Society.

TENTH.—Any person may become a member of this Society by signing the constitution, and if a male, paying to the Treasurer \$2, and if a female, \$1.

ELEVENTH.—Every person entering for plowing will be required to hold the plow.

TWELFTH.—All neat stock and horses should be kept in the county at least two months next preceding the exhibition, and all male breeding stock nine months, either before and after or before or after the exhibition.

THIRTEENTH.—All persons in the county may compete for the premiums offered, but in case a premium is awarded to a person not a member of the Society, the admission fee of a member will be deducted; but premiums and gratuities of less sums than the admission fees will be paid to all persons to whom they are awarded.

FOURTEENTH.—All persons exhibiting thoroughbred breeding stock are required to state in writing, at the same time of entry, the breed and registered pedigree of the animals, otherwise they are not entitled to a premium.

NINETEENTH.—In entering colts, the exact age must be given in days, months and years, up to the age of four years, when they will be classified as four years old, etc.

TWENTIETH.—In all premiums for experimental crops regard shall be had to cost of production as well as to quantity and quality.

Particular Notice to Judges.

Judges are requested to be prompt at the place of meeting, and to make themselves acquainted with their associates without any hesitation. They should make themselves familiar with the details of the Arrangements and List of Premiums, and each member shall have a copy of the same in hand during the exhibition for reference. They should render all the aid in their power in diffusing information and inciting competition, as the success of the exhibition depends, in a great measure, on the manner in which they discharge their duties.

The Judges may fill a vacancy occurring in their number, and members may act if the number cannot be conveniently filled. No claimant for a premium can act as a Judge upon the subject for which he makes his claim.

The Chairman of every board of Judges is expected and particularly requested by the officers and rules of the Society, to make a full report in writing of whatever comes under the notice of the board on which he serves, and send the same to the Secretary of the Society as soon after the exhibition as possible, *but certainly within thirty days*, so that the same may be printed in the Transactions without too much delay. Reports of all classes on exhibition are very much desired, and it is hoped that this year the Judges will see that this important suggestion is attended to.
